

A Loyal Canadian

I choose my government to fight for me,
I abide by good "citizen principles" which are
right for me.

When the going gets tough,
When the times get rough.

We need to stand side by side,
And let the government decide.

These three years were brutal with covid
issues,
Out of all supplies, groceries and tissues.

The hospitals and urgent care were all full,
Our health care workers fought like a bull.
Mandates were laid, which pleased just a few.
That was our need of the hour...pew

We should never forget essential workers
who stood beside us,
With their contribution we are nearing the
end of this covid fuss.

United we stand and divided we fall,
This should be our final call.
