

The Light and the Dark

Morning dew on the grass.

Birds singing in the morning light.

Full moon with owl flying in the sky.

This is the unity of nature.

Why can't humans find peace?

Instead we war.

Against one another.

We pollute the air and the oceans

We cut down the jungles and the old growth

We deprive each other of our rights

We fight to be the right one in the made up story

Why can't we see the beauty of spring, summer, fall, winter?

Find your path toward the light and live.
