

Be The Light

This is what I want for our Planet: Animal cruelty STOP!

I am working towards this for many reasons

Animals have saved our lives in many ways, now it's time to save theirs!

Animal cruelty must stop, you can do something about it too

Some people might think I am just a kid, but they are wrong

Animals are being used in shampoo, body lotion, all the things we use

I think that it is very selfish of us to test our body lotion on animals

They never did anything to use to deserve this horrible manner!

Remember you can do something about this too!

This is what I want

Freedom for animals

Freedom

Choice

Peace

A human hand is very powerful

Watch how you use it!
