

Democracy will not come today,
or this year
but we don't need away
because we have no fear

We cry out
with a big pout
we want to be free
just to be

We have to vote,
then I'll check what I wrote
then we can sail on a boat,
but make sure you wear a coat

People get elected that
you never expected,
when they get selected
they get respected

We fight for justice
with equality
most of the things you do with
technology

Before going to vote, wear a shoe,
then after you vote, say woo hoo!
later ask a question saying, "where are you?"

I live here too
just like you. and
I want to be free
to fly like a bee,
the democracy you and me!
