

Democracy, democracy, means of the people, By the People, For the people
Democracy, democracy, I live in a democratic country
Democracy, democracy, I have the right and choice to vote to choose our
government
Democracy, democracy, I have the right to speak to present our opinions
Democracy, democracy, the government rules us, and we rule
the government
Democracy, democracy, I have the freedom to go anywhere and live anywhere
in the world
Democracy, democracy, of my rights and responsibilities
Democracy, democracy, no difference between the broke or wealthy, black or white
men or women
Democracy, democracy, we all might be different, but we are all equal
Democracy, democracy, we choose they win or loose
Democracy, democracy, not only me but everyone needs to be
Democracy, democracy, now that I know you, it's time for you
to from here and over
Democracy, democracy, now we need to hear a word
Democracy, democracy, we don't have a choice; we need to hear a voice.
Democracy, democracy, in this world, we might all need the light at night
but we also need equal rights, whether it is day or night
rainy or sunny, we all need equal rights
Democracy, democracy, we might not be free today or tomorrow
but will be someday
Democracy, democracy, I stand up for my hopes
Democracy, democracy, I won't take any chances and ruin my paths
Democracy, democracy, means of the people, By the People, For the people
