

How I Feel about Democracy

How I feel about democracy

I adore that democracy gives us a voice

I loathe that I will have to wait to vote

I have freedom

I desire to use my voice to help our country

I understand that my rights were gained

I can't grasp why it took so long for some people to acquire their rights despite their endless endeavors to receive them

I know that one day I will vote

I aspire that my generation will make Canada a better place

I do not wish to be part of a generation that will weigh our country down

I believe that Canada's democracy is astounding

I realize that democracy is a great thing

I feel glum when I think of the potential to become an inactive citizen

I feel lucky knowing my teachers will drive me to become an active citizen

I feel terrified at the thought of living in a country without democracy

I feel secure knowing I live in Canada.

I will use my voice to help democracy by voting,
and using the rights which were fought for,
until I fall into an eternal sleep

I will become someone who influences others to use their voices.
