

How Can My Voice Be Canada's Future ?

What democracy means to me
Democracy has changed our society
Women finally have the right to vote
Also First Nations had no right to society
That all changed
But it took far too long
We have protested 'til our throats went dry as a desert
We have fought 'til our hands have broken
We have argued for far too long
We can't hide from these things
We must embrace these things
I have freedom of voice
I am a part of Canada
I am one voice in all of Canada
I am the next generation
of
Voters
Prime Ministers
Government
We are making a better place for our children
and our children's children
We have to make decisions for all of Canada
Not all agree with our decisions
But we must do what is right
It might negatively affect Canada
But it also could positively affect Canada
What can I do as a kid in Canadian democracy?
How can **MY** voice be heard?
I could protest 'til my heart stops
I could express my opinions to people as loudly as a siren

I can influence people about my opinions
Democracy brings out your true emotions
Democracy shows your true beliefs
Democracy is a voice that can be heard
all through Canada
Democracy makes people confident in
what they believe in
Without democracy I don't know what
Canada would be
We would have no order
Canada would be in chaos
This is what makes Canada, Canada
I don't want to live in Canada without democracy
We are Canadian
Let's make our voices heard
