

When Voices Sing Democracy's Song

Motivating. Impacting. Inspiring.

A single voice,

That's all it takes.

Our voice is as precious as time,

When used virtuously, it is an instrument of peace and integrity.

Many extraordinary deeds have been accomplished due to the supremacy of our voices.

A voice is not only a sound,

It is what makes a being fully alive.

When you express your thoughts, recommendations, and worldviews,

You have a voice.

We all have voices.

It doesn't matter what you look like,

You are important.

Any being, even the predators of the wild,

Are important because they have a voice.

When voices are placed in conjunction,

Countless ideas are constructed.

We all have opinions on nearly every matter,

Meaning that we contradict each other and form many conflicts.

Frequently, people disagree with other people's opinions, but don't speak up because they are afraid.

To all those who don't speak up,

Do not be afraid!

Although some individuals will criticize how you see the subject,

It could be a brilliant idea that benefits the way that we live in our daily lives.

If everybody feared sharing their ideas and thoughts,

There would be nothing on earth except for vegetation and some animals.

Be strong, courageous, and righteous!

Due to people not seeing eye to eye,
There is democracy.
Democracy is like going on vacation.
You want to go to several places but you can only choose one.
Democracy lets us choose who we want to govern and lead us.
We use our voices to decide what we want for ourselves, families, and our country.

Our voices are the glue that holds everything together,
Without them, there would be nothing.
Innovation and success would not exist.
Do not underestimate what we can do when we try.
When we truly strive to achieve our goal,
We transform from a single note into a beautiful song,
With every voice singing together in melodious harmony.

This is democracy.
Democracy is freedom.
We have freedom.

“Democracy is never a thing done. Democracy is something that a nation must be doing.” - Archibald MacLeish
