

## ***How to Redefine Democracy***

*A flowing voice  
Can awaken a generation;  
Bleed and fight for them,  
Lay a foundation.*

*Your voice shouldn't discriminate  
Between the fair and the corrupt,  
Make pages in history books.  
Make crowds erupt.*

*Money can help,  
But it can't leave a reputation.  
Status is valued  
But will it outlive our nation?*

*If they won't act like adults  
We will.  
Arm yourself with faith.  
And pray it doesn't go downhill.*

*For tonight, we end the crooked minds,  
We break them down in words.  
Our courage will tend and guide us;  
They will call us absurd.*

*Our democracy will grow  
At the hands of our society.  
Paint the black-and-white walls  
With the colors of variety.*

*Our future is not inevitable,  
The nation must realize  
Politics is not just laws,  
Not all who speak are wise.*

*We will not give up our chance  
To finally establish equality;  
So grab your verbal weapons  
And redefine democracy.*
